109 Years of Building a Better IBEW LU 193

On July 22, 1901, IBEW Local Union 193 joined the elite Local Unions in North America. 10 brave men signed the original charter for LU 193. These men put their lives on the line in the hope of building a better life for themselves, their fellow Brothers and families, and for the generations to follow.

3150 Wide Track Drive, 2010

Over 109 years later, we continue working together in building a better LU 193. From our beginnings in the Pierik and Reich Buildings in downtown

Springfield, to our offices and training facility on College Street and Wide Track Drive, and to today on Wide Track Drive, we continue our mission in representing thousands of highly skilled, trained and dedicated workers.

Within the walls of our building, and on every job site, we pledge to build an atmosphere in which all members are respected for their diversity, education and contributions to the growth and success of LU 193.
