

We need you! We're looking for those who may be interested in donating their overstock of garden items to brothers and sisters in need. We are also looking for brothers and sisters in need of home-grown veggies.

193 is implementing this new program to get garden items from those who harvest more than they need or want to those who are off work and can use them. This exchange will more than likely take place at the hall parking lot on a designated day or days at designated times. We will use the website to relay information on what is available prior to each distribution date. The 193 webmaster email address will be available so donors can let us know what they have available.

Please check back to the website for further information regarding this program. Also, let us know through the 193 e-mail address if you may be interested in giving or receiving as there has to be a supply and a demand to make this work.
